## CALL FOR PAPERS

The ICMEP 2017 : 19th International Conference on Manufacturing, Engineering and Productivity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Manufacturing, Engineering and Productivity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing engineering  
Manufacturing practices  
Research, design and development of systems  
Processes, machines, tools, and equipment  
Distribution and storage  
Design and manufacturing processes  
Modern developments  
Modern tools  
Mechanics  
Automation  
Robotics  
Statics and dynamics  
Flexible manufacturing systems  
Computer integrated
