CALL FOR PAPERS

The ICECS 2017 : 19th International Conference on Electrotechnics and Computer Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrotechnics and Computer Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronics and electrical
engineering
Computer science applications

Circuits, devices and systems
Materials for electrotechnics
Power electronics and power
drives
Electric vehicle technologies
Nanoelectromechanical system
Measuring technology and
instruments
Photonics and optoelectronics

Computers, software and
applications
Control and robotics
Power electronics and energy

systems
Communications and networking
Signal and multimedia
processing
Biomedical and health
informatics
Smart grids and renewable
energy
Computation intelligence in
electrical engineering
Biomedical electronics and
bioinformatics
Distributed generation, fuel
cells and renewable energy
systems
