CALL FOR PAPERS

The ICSC 2017 : 19th International Conference on Spatial Cognition is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Spatial Cognition. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Theoretical foundations and historical development of situated cognition
Neuroscience of spatial and situated cognition
Space and situated cognition in different cognitive processes
Individual differences in spatial and situated cognition
Spatial cognition in virtual reality
Situating models of spatial cognition
Situating robotics
Situating cognition and applied research

Situating cognition in architecture
Spatial situated cognition in arts
