CALL FOR PAPERS

The ICFE 2018 : 20th International Conference on Food Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural Biotechnology
Animal biotechnology
Application of artificial intelligence in food engineering research and in industry
Artificial organs and implants
Biocatalysis, organocatalysis and nanobiotechnology
Bioinformatics
Biological and biomedical imaging
Biomedical Computational drug discovery
Bio-MEMS and microbioreactors
Biomimetic and self-assembled materials

Bioremediation of polluted sites
Biosensors and molecular diagnostics
Cell and tissue engineering
Control and system engineering for food industry
Drug screening and pharmaceutical synthesis
Electronics and instrumentation in food industry
Environmental Biotechnology
Enzyme Engineering
Food Biotechnology
Food microstructure development and characterization
