

# CALL FOR PAPERS

**ICCL 2015**  
**Jan 13-14, 2015**  
**Zurich, Switzerland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCL 2015 : International Conference on Cognitive Linguistics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cognitive Linguistics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acquisition	Domains and frame semantics
Analogy and conceptual transfer	Embedded discourse
Applied cognitive linguistics	Embodiment
Categorisation, prototypes and polysemy	Embodiment and language acquisition
Categorisation, prototypes and polysemy	Functional approaches to cognitive linguistics
Cognitive and construction grammar	Gesture
Cognitive and developmental psychology	Language and space
Cognitive computational models	Language evolution
Cognitive linguistic approaches to language teaching	Language evolution and language change
Cognitive Linguistics	Language use and linguistic relativity
Cognitive semantics	Lexicology and lexical concepts
Corpora and statistical methods	Linguistic variation and language change
Critical Discourse and Communication studies	Linguistics
