

CALL FOR PAPERS

ICAMOR 2015
Dec 21-22, 2015
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMOR 2015 : International Conference on Applied Mathematics and Operation Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applied Mathematics and Operation Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical theory/applications
Applications of mathematics in management science
Innovative applications of mathematics in optimisation
Mathematics in developing computational theory/applications
Algorithms for efficient solution methodology
Mathematics of discrete/continuous/stochastic optimisation
Stochastic theory/models, statistical tools/techniques
Mathematical/dynamic/stochastic programming

Simulation techniques, AI/expert systems, machine learning
Control theory/methodologies, reliability
Mathematics of inventory theory/models
Queuing/transportation/location/net work/game/scheduling theory/applications
Marketing models/optimisation, decision theory/support systems
OR mathematics in procurement/manufacturing/distribution/finance/accounting
Applied mathematical techniques in data mining/storage management
Supply chain management/modelling/analysis
