

CALL FOR PAPERS

ICCV 2016
Jan 12-13, 2016
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCV 2016 : International Conference on Connected Vehicles is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Connected Vehicles. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Big Data in Transportation and Smart Cities
Emerging Application Scenarios and Business Models in Transportation
Emerging Technologies for Next-Generation Transportation
Regional Experience and Differences in Transportation
Standardization Needs for Connected, Automated and Intelligent Vehicles
Standardization Needs for Electric Vehicle and Transportation Electrification
Wireless Communications and Vehicular Networking
Cooperative Driving, Intelligent and Autonomous Vehicles

Automotive Electronics and Automatic Control
Transportation and Connected Vehicles
Intelligent Transportation Systems
Electric Vehicle and Transportation Electrification
Geographic, Spatial and Social Information Systems
Manufacturing and Product Safety Engineering in Connected Vehicles
Practices, Recommendations and Standards in Connected Vehicles
Policy, Economics and Social Implications of Connected Vehicles
