

CALL FOR PAPERS

ICB 2016
Feb 15-16, 2016
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICB 2016 : 18th International Conference on Biocatalysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biocatalysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Batch, fed-batch and
Biocatalysis in
Biocatalysis under
Biocatalysts in
Bioinformatics
Bioprocess engineering
Biorefinery and
Biotransformation with
Crystal structures
Directed evolution and
DNA chip technology
Downstream-processing
Environmental genetics
Enzymatic and whole cell

Enzyme discovery,
Enzyme discovery,
Green chemistry
High-Throughput-Screening
Immobilization of
Integrated genomics
Mechanisms of enzyme
Metabolic engineering
Proteomics
Reaction sequences
Structure-function
Structure-function
Sustainable industrial
