

CALL FOR PAPERS

ICWEEM 2016
Mar 24-25, 2016
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWEEM 2016 : International Conference on Water, Energy and Environmental Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water, Energy and Environmental Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural	Groundwater and aquifer
Air pollution policy	Hydrogen energy
Air quality management	Lakes and rivers
Bioaccumulation	Low cost technologies
Biomass and bio diesel	Nanotechnologies for
Carbon capture	Novel techniques for
Clean Energy	Oil spills
Climate change	Photovoltaic Energy
Combustion and	Pollution prevention
Decarbonization	Primary energy resources
Desalination	Regional and global
Ecosystem Restoration	Remediation
Emerging technologies for	Socio-economic aspect of
Energy Analysis and	Solar and wind energy
Energy conservation	Sustainability
Energy efficiency	Sustainable energy
Energy generation	Thermodynamics of
Energy Management	Waste to energy
Environment development	Wastewater management
Environmental monitoring	Wastewater treatment
Environmental protection	Water management
Environmental sensing	Water policy
Environmental toxicology	Water resources
Geothermal energy	Water reuse
Green technology
