

CALL FOR PAPERS

ICIFE 2017
Apr 27-28, 2017
Kyoto, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIFE 2017 : International Conference on Image Fusion Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Image Fusion Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Image Fusion Engineering
Image Fusion: Theories, Techniques
and Applications
Fusion
Thermal Image Fusion
Image Pixel Fusion
Image registration
Radiometric calibration
Semantic equivalence
Sub-space transformations
Multi-resolution analysis
Wavelets
Ensemble learning

Bagging
Boosting
Color spaces
Image thresholding
Markov random fields
Image similarity measures
The expectation-maximization
algorithm
Panchromatic sharpening
Ensemble color image segmentation
The Truth
Performance algorithm of Warfield
