

CALL FOR PAPERS

ICSASS 2017
May 14-15, 2017
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSASS 2017 : International Conference on Structural Analysis and Structural Stability is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Analysis and Structural Stability. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural analysis
Physical structures and components
Physical tests
Classification of structures
Analysis of structures
Moment distribution and slope
deflection methods
Matrix structural analysis
Computer applications to analyze
beams
Frames and trusses
Lateral loads on high-rise
buildings

Structural systems for high-rise
buildings
International building codes
Strength of materials methods
Applied mechanics, materials
science and applied mathematics
Structure's deformations
Internal forces
Stresses
Support reactions
Accelerations
Stability
