

CALL FOR PAPERS

ICASM 2017
Jun 21-22, 2017
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASM 2017 : International Conference on Advanced Smart Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Smart Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Smart materials development and application: shape memory alloys and polymers, electro and magnetorheological materials, piezoelectrics, ferroelectrics, multiferroics, piezomagnetism, electro and magnetostrictive materials, thermoelectrics, photovoltaics, electro and magnetocaloric materials, electrochromics, electroactive polymers, energy storage materials, self-healing materials and multifunctional materials in general
Application of smart materials, structures and related technology
Fundamentals of smart materials
Intelligent systems, integrated with sensors, actuators and controllers, applied to automation and robotic systems that utilize smart material systems
Modeling/formulation and characterization of smart actuators, sensors and smart material systems

Smart material systems that utilize biomimetics and bioinspiration
Smart materials utilized as sensors and actuators with applications at any scale
Smart optical materials for modification in spectral shifts and refractive index shift
Trends and development in composite materials, intelligent hydrogels, interfacial phenomena, phase boundaries and boundary layers of phase boundaries, control, micro- and nano-systems, electronics
