

CALL FOR PAPERS

ICWEWM 2017
Nov 16-17, 2017
Kyoto, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWEWM 2017 : International Conference on Web Engineering and Web Maintenance is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Web Engineering and Web Maintenance. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Web engineering
Principles and techniques
Web development practices
Web development process
Architecture design
Web page design
Web maintenance
Project management
Web system design
Web testing and evaluation
Categories of web applications
Evolutionary web development

Modeling disciplines
Design disciplines, tools and methods
Implementation disciplines
Testing disciplines
Applications
Web quality
Web effort estimation
Effort estimation technique
Web usability
Web system reliability and performance
Web application testing
Web productivity measurement
