

CALL FOR PAPERS

ICIISPD 2017 Nov 09-10, 2017, Singapore, SG

The ICIISPD 2017 : 19th International Conference on Resource Conservation and Restoration Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Smart infrastructure systems	Municipal infrastructure asset management systems
Principles of smart infrastructure	Municipal infrastructure financing
Application of smart infrastructure systems	Road reconstruction
Artificial intelligence technologies for smart infrastructure systems	Trenchless technology
Intelligent infrastructure systems	Subsurface utility engineering
Intelligent infrastructure solutions	Transient analysis
Environmental implications	Combined sewer overflow control
Intelligent infrastructure networks	Water main and sewer construction
Intelligent infrastructure management	Water main and sewer rehabilitation
Urban infrastructure systems	Environmental assessments
Policy drivers of intelligent infrastructure	Hydraulic modeling
International and domestic trends	Street planning and design
Infrastructure planning	Earthworks and site grading
Infrastructure management systems	Pavement design
Infrastructure financing	Subsurface drainage
Co-operative governance and collaboration	Bridges and related structures
Policy development	Fences, guardrails and barriers
Setting norms and standards	Off-street parking
Monitoring and regulation	Guide signs
Service delivery life cycle	Traffic control devices
Municipal infrastructure design standards	Public lighting
Infrastructure asset management	Urban edges management zone

Background: International Research Conference Series is an event that brings together significant number of recurring events; academic conferences, symposia, workshops, special sessions, and plenary talks in all research fields since inception in 1999. Each event may run over any span of time within the conference days. Presentations scheduled in the Oral and ePoster sessions are drawn from a selection of the peer reviewed papers from a wide range of scientific and other disciplines of inquiry.
