

CALL FOR PAPERS

ICCV 2018
Jan 30-31, 2018
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCV 2018 : 20th International Conference on Computer Vision is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Vision. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer vision	Recognition (2D and 3D)
Pattern recognition	Texture and color
Sensors and early vision	Scene understanding
Color and texture	Segmentation
Segmentation and	Shape from x
Motion and tracking	Visual navigation
Stereo and structure from	Pattern recognition and
Image-based modeling	Statistical pattern
Illumination and	Structural and syntactic
Shape representation	Neural networks
Object recognition	Machine learning and data
Video analysis and event	Artificial intelligence
Face and gesture	Classification and
Statistical methods and	Feature selection,
Performance evaluation	Kernel methods and
Medical image analysis	Invariance in
Image and video	Multiresolution
Applications	OCR, document analysis
Computer vision and image	Information retrieval
Active vision	Signal, speech and image
Early vision	Enhancement and
Feature extraction	Filtering
Motion analysis	Image and data
Representation
