

# CALL FOR PAPERS

**ICHCSSES 2018**  
**Jan 30-31, 2018**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHCSSES 2018 : International Conference on Human-Centered Software Engineering and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Human-Centered Software Engineering and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Human-Centered Software Engineering and Systems  
Integration of software engineering and user-centered design  
HCI models and model-driven engineering  
Incorporating guidelines and principles for designing usable products in the development process  
Usability engineering  
Methods for user interface design  
Patterns in HCI and HCSES  
Software architectures for user interfaces  
User interfaces for special environments

Representations for design in the development process  
Working with iterative and agile process models in HCSES  
Social and organizational aspects in the software development lifecycle  
Human-centric software development tools  
User profiles and mental models  
User requirements and design constraints  
User experience and software design  
Case studies, evaluations, and tools
