

CALL FOR PAPERS

ICASEBS 2018
Jan 25-26, 2018
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICASEBS 2018 : 20th International Conference on Advanced Structural Engineering and Building Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building systems
Materials and
Building technology
Energy and sustainability
Construction management
Construction safety and
Refurbishment and
Civil construction
Materials innovations
Experience in
Architecture and

Construction, material
Design education and
Environmental and
Generative, parametric
Interactive environments
Interface between
Simulation, prediction
Theory, philosophy and
Thermal comfort, lighting
Architecture and social
Facade design
