

# CALL FOR PAPERS

ICASEBS 2018 Jan 25-26, 2018, Paris, France

The ICASEBS 2018 : 20th International Conference on Resource Conservation and Restoration Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building systems	Construction, material and technology
Materials and construction systems	Design education and design research
Building technology	Environmental and landscape architecture
Energy and sustainability	Generative, parametric and evolutionary architecture
Construction management	Interactive environments and collaboration
Construction safety and health	Interface between research and industry
Refurbishment and maintenance	Simulation, prediction and evaluation
Civil construction	Theory, philosophy and methodology in architectural science
Materials innovations	Thermal comfort, lighting and acoustics
Experience in environmental product declarations	Architecture and social research
Architecture and environmental sustainability	Facade design

**Background:** International Research Conference Series is an event that brings together significant number of recurring events; academic conferences, symposia, workshops, special sessions, and plenary talks in all research fields since inception in 1999. Each event may run over any span of time within the conference days. Presentations scheduled in the Oral and ePoster sessions are drawn from a selection of the peer reviewed papers from a wide range of scientific and other disciplines of inquiry.
