

CALL FOR PAPERS

ICCEBM 2018
Jan 25-26, 2018
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICCEBM 2018 : 20th International Conference on Civil Engineering and Building Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural engineering
Road & Bridge
Geotechnical engineering
Architecture & Urban
Transportation
Hydraulic engineering
Coastal Engineering

Engineering Management
Computational Mechanics
Construction technology
Building materials
Environmental
Computer simulation and
