CALL FOR PAPERS

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICELDL 2018 : International Conference on E-Learning and Distance Learning is
the premier interdisciplinary forum for the presentation of new advances and research results in the fields of E-Learning and Distance Learning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Online training methodologies (simulations, case-based learning, and more)
Performance support systems
Just-in-time learning
Mobile learning, including the use of iPads, smartphones, and other mobile devices
Collaborative and social learning
E-learning design
E-learning usability studies
Success stories and case studies
E-learning experiences in large and small organizations

Knowledge management
Strategies for implementing e-learning within an organization
Authoring tools and Learning Content Management Systems
E-learning evaluation
Studies of e-learning in practice
E-learning project management
The use of virtual worlds in e-learning
Communities of practice
