

CALL FOR PAPERS

ICGBCCHN 2018
Mar 29-30, 2018
Osaka, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGBCCHN 2018 : International Conference on Green-Belt Cities and Contiguous Habitat Network is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green-Belt Cities and Contiguous Habitat Network. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Green-belt cities
Green belt policy
Urban planning models of the future
Protection of natural or semi-natural environments
Air quality within urban areas
Unique character of rural communities
Benefits for people
Contiguous habitat network for wild plants, animals and wildlife
Land use planning
Shelf-edge processes and ecosystem production

Educational activity
Recreational use of green belt land
Health related recreation
Outdoor sporting activity
Accessible natural greenspace
Landscape scale management
Healthy natural systems
Thriving farming and forestry
New challenges for green belt land
