

CALL FOR PAPERS

ICQCAP 2018
Mar 27-28, 2018
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQCAP 2018 : 20th International Conference on Quantum Communication, Applications and Protocols is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Communication, Applications and Protocols. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum communication
Quantum communication
Information technology
Information processing
Nondeterministic
Fiber based systems
Quantum continuous
New applications and
Free space systems
Towards space quantum

Quantum interfaces and
Sensing and measurement
Science motivations and
Multi-party quantum
Entanglement and
Quantum key distribution
Quantum teleportation
Entanglement swapping,
Quantum memories
