

CALL FOR PAPERS

ICSGES 2018
Apr 23-24, 2018
Boston, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSGES 2018 : 20th International Conference on Smart Grids and Energy Storage is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Smart Grids and Energy Storage. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy storage for smart
Energy storage and
Electric energy-storage
Potential of
Sodium-sulfur battery
Application of energy
Impact of energy storage

Cascade mitigation in
Real-time markets
Power-system reliability
Energy-storage operation
Electric vehicles as
Decentralized energy
Operation of independent
