

# CALL FOR PAPERS

**ICMBM 2018**  
**Apr 19-20, 2018**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBM 2018 : 20th International Conference on Microbial Biotechnology and Metagenomics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbial Biotechnology and Metagenomics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microbial biotechnology  
New approaches to  
Microbial biotechnology  
Recent advances in  
Microbial physiology,  
Biocatalysts, synthetic  
Biotechnological  
New imaging techniques  
New biotechnological  
Metabolic Engineering,  
Structure of microbes,  
Microbial enzymes  
Bacterial transformation  
Electroporation

Cloning and expression  
Fusion proteins  
Microbial proteins  
Food products  
Energy production in  
Therapeutic proteins  
Field applications of  
Using microbes against  
Vaccines  
Microbial genomes  
Viral genomes  
Microbial diagnostics  
Combating bioterrorism
