

CALL FOR PAPERS

ICCCMDM 2018
May 03-04, 2018
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCMDM 2018 : 20th International Conference on Concrete Construction, Modeling and Design Methods is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Concrete Construction, Modeling and Design Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Concrete structures
Reinforced concrete
Design methods in
Sustainable construction
Possibilities in concrete
Technical concepts
Unreinforced concrete
Design basis for
Reinforced and

Strut and tie modeling
Construction and the
Waste construction waste
Embodied energy
Energy required for
Corrosion of reinforced
Corrosion prevention
Structural design
Good practice in concrete
