

CALL FOR PAPERS

ICCTCS 2018
Jun 03-04, 2018
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTCS 2018 : 20th International Conference on Computational and Theoretical Computer Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational and Theoretical Computer Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Partial and ordinary
Probability and queuing
Random processes
Real analysis and
Singular perturbation
Stochastic differential
Stochastic modelling
Univalent functions
Advanced calculus and
Calculus and
Satisfiability modulo
Computational methods
High-performance
Algebra and algebraic

Nonlinear programming
Number theory
Numerical analysis
Image, speech and video
Pattern recognition and
Linear algebra and
Mathematical modelling
Quantifier elimination
Numeric, symbolic,
Solving polynomial
Data modeling and
Information security and
Cryptography protocols
Foundation of algorithms
