

CALL FOR PAPERS

ICPEDD 2018
Oct 04-05, 2018
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

The ICPEDD 2018 : 20th International Conference on Precision Engineering, Devices and Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Precision engineering
Controls and
Metrology systems and
Precision design of
Precision manufacturing
Micro and nano
Characterization, data
Advanced moulding and
Cad/cam technology
Characterization:
Design and build of
Design engineering
Green manufacturing

High precision machining
Machine tools
Machining control
Measurement engineering
Mechatronics
Medical devices
Mems/nems
Non-conventional
Precision devices
Service engineering
Tribological systems
Ultra/nano-precision
Other related
