

CALL FOR PAPERS

ICPEA 2019
Jan 10-11, 2019
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPEA 2019 : 21th International Conference on Pavement Engineering and Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pavement Engineering and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pavement engineering
Infrastructure and
Design and maintain
Materials technology
Soils, hydraulics, and
Rehabilitation and
Testing techniques
Manufacturing processes
Construction techniques

Waste materials
Government policy
Utilization
Asphalt and concrete
Composite pavement
Highway pavements, design
Road base materials
Highways and road bridges
