

CALL FOR PAPERS

ICAFC 2019
Mar 11-12, 2019
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFC 2019 : International Conference on Advances in Food Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Food Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Food chemistry	Food storage and preservation
Chemistry of food	Food, nutrition and health
Behavior of hydrocolloids	Food functionality
Food flavor chemistry	Bioactive constituents
Hydrophilic colloids in food industry	Processing, fortification and packaging of food
Sea food and staple food	Recent advancement in food science
Food microbiology and impact of water on food	Equipment's and techniques
Food safety and food security	Food dairy: science, research and sustainability
Rheology and kinetics of chemical reaction in food
