

# CALL FOR PAPERS

**ICCS 2019**  
**Mar 28-29, 2019**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCS 2019 : International Conference on Computational Statistics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Statistics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical sciences  
Statistics  
Mathematical statistics  
Descriptive statistics  
Inferential statistics  
Statistical computing  
Computational statistics  
Statistics, estimators and pivotal quantities  
Probability and statistics  
Null hypothesis and alternative hypothesis  
Error  
Interval estimation  
Significance

Linear algebra  
Mathematical methods  
Computational methods  
Scientific observations  
Computational science  
Analysis  
Applied mathematics  
Combinatorics  
Computational mathematics  
Complex numbers  
University maths  
Complex analysis
