

CALL FOR PAPERS

ICAOET 2019
Apr 11-12, 2019
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAOET 2019 : International Conference on Artificial Organ Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Artificial Organ Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificial organs
Artificial organ engineering
Anticoagulation and
Hemocompatibility
Anticoagulation and
Hemocompatibility
Biomaterials, artificial organs and
tissue engineering
Artificial organs and tissue
engineering
Artificial organs and ability
enhancement
Organ transplant technology
Mass transfer coefficient

Membrane operations
Adsorption
Bioreactors
Blood oxygenators and artificial
lungs
Artificial kidney
Artificial and bio-artificial
liver
Artificial bone, skin, uterus,
kidney
Biomechatronics
Biomedical engineering
Decellularization
Organ culture
