

CALL FOR PAPERS

ICGGDT 2019
Nov 07-08, 2019
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGGDT 2019 : International Conference on Geosciences, Geotechnology and Dynamic Tectonics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geosciences, Geotechnology and Dynamic Tectonics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Exploration geology	geology and mineral resources
Geographic information systems	Mineral processing, waste
Management of geoscientific data by	management and recycling
geological surveys	Geological map of the world
Rock mechanics applied to	Mapping and regional geochemistry
seismology	Geochemical exploration
Deep seismic soundings and deep	Geosphere-biosphere interactions
geologic repositories	Petroleum and environmental
Earthquake and structural	geology
engineering	Igneous and metamorphic petrology
Structural geology and tectonics	Mineralogy, petrology and
Dynamic tectonics and seismology	geochemistry
Sedimentology and costal process	Geochronology including for crude
Exploration, development and	oils and oil deposits
production of earth	Industrial processes and ore
Mining and mineral exploration	beneficiation
