

CALL FOR PAPERS

ICSAHCM 2019
Nov 07-08, 2019
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSAHCM 2019 : International Conference on Structural Analysis of Historical Constructions and Monuments is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Analysis of Historical Constructions and Monuments. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

History of construction and building technology
New technologies and techniques
Inspection, non-destructive and laboratory testing
Numerical modeling and structural analysis
Vulnerability and risk analysis regarding natural and man-made hazards
Seismic analysis and retrofit

Repair and strengthening techniques
Assessment and intervention of archaeological heritage
Durability and sustainability
Management of heritage structures and conservation strategies
Structural health monitoring
Interdisciplinary projects and case studies
