

# CALL FOR PAPERS

**ICSC 2019**  
**Nov 12-13, 2019**  
**Venice, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSC 2019 : International Conference on Satellite Communication is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Satellite Communication. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Satellite based communication  
Satellite based communication systems  
Advances in satellite based communication  
Satellite based communication technologies and applications  
Satellite technologies for advanced communication systems  
Satellite orbits  
Digital communications by satellite  
Advanced navigation systems  
Satellite based communication systems and advanced networks  
Low earth orbiting satellites

Satellite constellation  
Medium earth orbit  
Geostationary orbits  
Molniya satellites  
Polar orbit  
Structure of communications satellite  
Frequency allocation for satellite systems  
Applications of communications satellite  
Telephone, television, and radio broadcasting  
Amateur radio, internet access, and military
