

CALL FOR PAPERS

ICCPT 2019
Dec 04-05, 2019
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPT 2019 : International Conference on Cyberphysics Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyberphysics Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Access Control Logic and Covert Channels
Advanced TCP/IP Networks
Application of Cryptography to Information Security Problems
Applied Cryptography
Communications
Computer Architecture
Computer Forensics
Computer Network Security
Computer Networking
Computer Networks
Computer Programming
Computer Systems Assurance
Counterfeiting

Counterintelligence
Cryptography
Cyber Futures
Cyber infrastructure and Industry
Cyber security research
Cyber-physical systems
Cybersecurity
Data Fusion and Network Anomaly Detection
Data protection
Data Structures and Algorithms
Dependable Software Systems
Detection and Estimation Theory
Digital forensics
