

CALL FOR PAPERS

ICCBM 2020
Jan 20-21, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBM 2020 : International Conference on Condition-Based Maintenance is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Condition-Based Maintenance. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Recent developments in
condition-based maintenance
technologies, policies, strategies,
and so on
Advances in condition-based
maintenance system and system
implementation
Latest technologies and approaches
for systems evaluation and
measuring outcomes

Condition-based maintenance
functional component, modeling,
sensor technology, data mining, and
fusion systems architecture and
implementation
Lessons learnt, implementation
challenges, maintenance benefits,
and maintenance credits
