

# CALL FOR PAPERS

**ICEERBDC 2020**  
**Jan 13-14, 2020**  
**Bali, Indonesia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEERBDC 2020 : International Conference on Energy Efficient Residential Building Design and Construction is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Efficient Residential Building Design and Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy-efficient building design  
and construction practices  
Advanced materials for energy  
efficient buildings  
Design optimization of energy  
efficient residential buildings  
Optimization analysis to select  
energy efficiency measures suitable  
for residential buildings

Roof insulation, reducing air  
leakage, and installation of energy  
efficient appliances  
Energy consumption in residential  
buildings  
Energy efficiency policies,  
regulation, and rating systems  
Building design in an energy system  
perspective
