

# CALL FOR PAPERS

**ICHBI 2020**  
**Jan 17-18, 2020**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHBI 2020 : International Conference on Health and Biomedical Informatics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Health and Biomedical Informatics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Translational bioinformatics  
Medical informatics  
Clinical research informatics  
Nursing informatics  
Consumer health informatics  
Public health informatics  
Image informatics  
Pharmacy informatics  
Aged Care Informatics  
Measuring/improving patient safety and reducing medical errors  
Enhancing care outcomes towards a cost-effective, sustainable healthcare  
Enabling the continuity of care and the management of chronic disease conditions

Supporting clinical practice at a distance  
Assuring information system security and personal privacy  
Designing usable resources and systems  
Incorporating innovation in eHealth  
Assuring success in Health IT project management  
Responding to population and global health issues  
Promoting participatory health, patient-centered care and preventive medicine  
Enabling personalized and precision medicine  
Facilitating clinical and translational research  
Improving the education and skills training of health professionals and health informatics specialists  
Natural-language and speech processing  
Text mining
