

CALL FOR PAPERS

ICMAME 2020
Jan 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMAME 2020 : International Conference on Materials, Automotive and Mechanical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Materials, Automotive and Mechanical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerospace, Mechanical, Automotive
and Materials Engineering
Aerodynamics
Aircraft Design and Analysis
Applied Mechanics
Automation, Mechatronics and
Robotics
Automotive Design Engineering
Biomechanics
Biomedical Engineering
Body and Chassis Development
Computational Fluid Dynamics
Composite and Smart Materials
Compressible Flows
Computational Mechanics

Computational Modeling and
Simulation
Driver/Vehicle Interface,
Information and Assistance Systems
Dynamics and Vibration
Energy Engineering and Management
Engineering Materials
Fatigue and Fracture
Fault-Diagnosis Systems
Fluid Dynamics
Fluid Mechanics and Machinery
Fuels and Combustion
Heat and Mass Transfer
Heating, Ventilating, and Air
Conditioning
Instrumentation and Control
