

CALL FOR PAPERS

ICCSDD 2020
Feb 06-07, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSDD 2020 : International Conference on Computer System Design and Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer System Design and Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|--|--|
| Computer system design | Joint application design |
| Common problems of computer systems | Systems and complexity |
| Systems, components, interfaces and environments | Elements of computer system organization |
| Modularity, abstraction, layering, and hierarchy | The design of naming schemes |
| Computer system organization | Enforcing modularity with clients and services |
| The design of naming schemes | Enforcing modularity with virtualization |
| Enforcing modularity with clients and services | Performance |
| Enforcing modularity with virtualization | Fault tolerance |
| Architectural design | Atomicity |
| Logical design | Consistency |
| Physical design | Information security |
| Alternative design methodologies | Computer systems design for energy efficiency |
| Rapid application development | Networking and operating systems |
