

# CALL FOR PAPERS

**ICEEA 2020**  
**Feb 06-07, 2020**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEA 2020 : International Conference on Engineering Economy and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Economy and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering economy  
Economics of the management, operation, and growth and profitability  
Macro-level engineering economic trends and issues  
Engineering product markets and demand influences  
Development, marketing, and financing of new engineering technologies and products  
Creativity and technical entrepreneurship  
Technical organizations and their management  
Leadership and HRM; motivating/leading technical people  
Product development, R&D, design management  
Managing engineering and production operations

Project planning, acquisition, organization, leadership/control  
Financial management for engineers, cost estimation/accounting  
Decision-making processes  
Technology and knowledge management  
Planning, forecasting and marketing issues  
Project and risk management  
Economic decision/capital investment analysis; design/project economics  
Engineering management and economics Education  
Engineering management in the service industry  
Public policy analysis
