

# CALL FOR PAPERS

**ICSVA 2020**  
**Feb 06-07, 2020**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSVA 2020 : International Conference on Software Verification and Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Verification and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software verification  
Dynamic verification, test and experimentation  
Static verification and analysis  
Test in the small and large  
Module, integration, and system tests  
Functional and non-functional tests

Software verification and validation  
Static verification  
Code conventions verification  
Bad practices (anti-pattern) detection  
Software metrics calculation  
Formal verification
