

CALL FOR PAPERS

ICBBABM 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBBABM 2020 : International Conference on Bionanotechnology, Biocatalysis and Advanced Biofluid Mechanics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bionanotechnology, Biocatalysis and Advanced Biofluid Mechanics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced biotechnology
Biocatalysis
Bioelectrical and neural engineering
Bioenergy and biofuels
Biofluid mechanics
Biotechnology and applications
Biorheology
Biological flow measurement techniques, microcirculation, hemodynamics
Biological systems

Biomaterials and biomechanics
Biomedical engineering
Biomedical signal and image processing
Biomedical modeling and computer simulation
Biometric and biomeasurement
Bionanotechnology
Biophysics
Current scenario of biotechnology
Industrial and microbial biotechnology
