

CALL FOR PAPERS

ICSSD 2020
Feb 27-28, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSSD 2020 : International Conference on Satellite Systems Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Satellite Systems Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Satellite design, development and security
Small satellite technology
Remote sensing satellites
Communication satellites
Advances in AODCS of satellites
Satellite subsystems design
Nano-technology for space missions

Payloads and sensors design
Ground station technology
Antennas and radars
Space debris
Student satellite projects
Space mission, analysis and design
