

CALL FOR PAPERS

ICCMF 2020
Mar 26-27, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMF 2020 : International Conference on Composite Materials Forming is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Composite Materials Forming. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials behavior
Casting and solidification
Powder metallurgy and ceramic forming
Surface, subsurface, and interface phenomena
Coatings and surface engineering
Composite materials
Materials forming
Machining
Nanomaterials and nanomanufacturing
Biomedical manufacturing
Environmentally sustainable manufacturing processes and systems
Manufacturing process planning and scheduling

Meso and micro manufacturing equipment and processes
Modeling, analysis, and simulation of manufacturing processes
Computer aided design, manufacturing, and engineering
Semiconductor materials manufacturing
Laser based manufacturing
Precision molding processes
Joining processes
Rapid manufacturing technologies
Nontraditional manufacturing
Nanofabrication, nanometrology and applications
Metrology and measurement
