

CALL FOR PAPERS

ICFCPT 2020
Mar 26-27, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFCPT 2020 : International Conference on Flow Chemistry and Process Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Flow Chemistry and Process Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Flow chemistry
Continuous flow reactors
Flow chemistry theory and principles
Flow reactors - equipment and applications
Industrial experience and examples
Multistep synthesis in flow

Continuous flow reaction development
Continuous flow chemistry in pharmaceutical process and manufacturing
Photochemistry and electrochemistry in flow
Flow chemistry in materials science
Continuous flow analytical techniques and methods and process control
