

CALL FOR PAPERS

ICISA 2020
Apr 18-19, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICISA 2020 : International Conference on Information Systems and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Information Systems and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The Networked Society	IS Adoption and Diffusion
Big Data	IS Development
Decision Support	Methods, Tools and Human Factors in IS/IT Management
Business Analytics and Knowledge Management	Service Innovation, Engineering, and Management
Business Process Management	Business Models
Cloud Computing Services	Advancing Theories and Theorizing in IS Research
Social Media Research and Analytics	Human-centred Information Systems
Economics and Value of IS	Sustainably Digital
Economics behind Societal and Industrial Transformation through IS	Digital Health Initiatives
