

CALL FOR PAPERS

ICCEPR 2021 May 28-29, 2021, Tokyo, Japan

The ICCEPR 2021 : 23th International Conference on Resource Conservation and Restoration Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Resource Conservation and Restoration Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil engineering	Practical application of new technologies
Civil engineering works	Transport systems and water supply networks
Civil engineering planning	Consultant of civil engineering works
Planning in construction	Construction management and analysis
Preparing daily, weekly and monthly schedules	Environmental concerns
Working out resource requirements	Creating and maintaining structures
Project management tools	Materials science and statistical analysis
Reconciliation of major materials	Functional structures
Monitoring of procurement	Strengthening and rehabilitating structures
Micro planning	Structures that surround us: buildings, transport networks, energy and water supplies
Civil engineering contracts	Design, construction and maintenance of the physical and naturally built environment
Civil engineering construction	Materials science
Infrastructure projects	Construction and structure
Manufacturing processes	Water resources
Civil engineering practice	Geography, geology, soils, hydrology, environment, mechanics and other fields
Specialist practice	

Background: International Research Conference Series is an event that brings together significant number of recurring events; academic conferences, symposia, workshops, special sessions, and plenary talks in all research fields since inception in 1999. Each event may run over any span of time within the conference days. Presentations scheduled in the Oral and ePoster sessions are drawn from a selection of the peer reviewed papers from a wide range of scientific and other disciplines of inquiry.
