Engineering Education and Training	Safety, Security and Risk Management
Global Manufacturing and Management	Service Innovation and Management
Human Factors	Supply Chain Management
Information Processing and Engineering	Systems Modeling and Simulation
Intelligent Systems	Technology and Knowledge Management
Manufacturing Systems	

Background: International Research Conference Series is an event that brings together significant number of recurring events; academic conferences, symposia, workshops, special sessions, and plenary talks in all research fields since inception in 1999. Each event may run over any span of time within the conference days. Presentations scheduled in the Oral and ePoster sessions are drawn from a selection of the peer reviewed papers from a wide range of scientific and other disciplines of inquiry.
