

CALL FOR PAPERS

ICDH 2014
Nov 28-29, 2014
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDH 2014 : International Conference on Digital Heritage is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Heritage. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digitization
Photogrammetry and image-based modeling
3D scanning and digitization
Remote sensing and aerial lidar
GNSS (GPS, GLONASS, Galileo)
Advanced document scanning
Low-cost and gaming 3D input
Ultra-high resolution and HDR photography
Terahertz, Infrared, UV and X-ray imaging
Advanced sensors research
Analysis and Interpretation

Historic Document Analysis
Remote Sensing Analysis
Finite element, structural and other analyses
3D modeling (CAD-based and reality-based)
Building Information Modeling
Virtual Reconstruction Issues
Realism and Interpretation in CH
3D, multimedia and GIS
repositories, platforms, and info systems
Digital Curation
Virtual GIS and Mapping tools
Emerging technologies
